### **Martin River Bull Moose Hunt Closes**

**Cordova** – Resident registration permit hunt RM164 for antlered bull moose in the Martin River area will close at one minute before midnight on September 16, 2006, by emergency order of the Alaska Department of Fish and Game. Hunters are asked to return permit reports for hunt RM164 to the Cordova area office.

Cordova wildlife biologist Dave Crowley indicated that 19 bulls were reported taken as of September 15, 2006. The desired harvest is 20 bulls for the registration hunt. The hunt area includes all of Game Management Unit 6(B). All other moose hunts in Unit 6 are unaffected by the emergency order.
